Why use Organic Cotton?

Organic Cotton is grown using only natural fertilisers and non genetically modified seeds

Waste water is treated so no contamination is released into the environment

Finishing leaves no dye, bleach or chemical residue

Ensures:

- Farmers can reuse seeds and grow mixed crops

Reduces:

- Water waste; Organic farming methods

- Farmers can reuse seeds and grow mixed crops helping feed their families and reduce financial risk

- Workers in the supply chain are not exposed to any harmful chemicals or residues

- All factories are routinely inspected to ensure no forced or child labour

- Water waste: Organic farming methods maintain soil quality meaning rain water is held in the soil so less water is needed

- The use of chemicals deemed harmful by the World Trade Organisation

Did you know?

Traditional cotton production uses 10% of world pesticides and 25% of world insecticides, strong chemical agents that pollute the ecosystem.

Why use EcoViscose?

EcoViscose (a man made natural fibre) is derived from cellulose extracted from sustainably sourced wood pulp

The pulp is then dissolved, spun, finished and dried ready for knitting using a 100% chlorine free process

This closed loop process ensures all water and chemicals used are collected and re-used

Ensures:

- 0% pollution impact on ecosystem
- All wood and pulp is sourced from responsibly managed forests

Reduces:

- Dependence on landfill as end products are fully biodegradable
- Soil erosion through multi-crop farming

Saves:

- 50% less water, fossil resources and CO2 emissions compared to generic viscose production

Did you know?

Our LENZING™ ECOVERO™ branded EcoViscose fibres are certified by the Forest Stewardship Council (FSC) or Programme for the Endorsement of Forest Certification (PEFC) ensuring our commitment to a sustainable future.

Style Code: EA006

Style Name: Arrow Recycled Heavy Oversize T

Retail Copy:

Our retail ready oversized T is the perfect addition to any brand or businesses range. With a dropped shoulder, longer sleeve and boxy body fit this T is sculpted to look fantastic on. The handfeel and weight of this garment make this a quality, premium garment while simultaneously having a positive effect on the environment by using recycled cotton and recycled polyester.

Why use Recycled Cotton?

Waste cotton is collected and sorted by colour → 'Clips' are shredded and blended with recycled polyester derived from waste plastic bottles → Re-spun and knitted into new garments

Recycles:

- On average 0.22kg of cotton waste and 19 plastic bottles per sweater

Reduces:

- The land mass needed to grow new cotton; saving 200g of pesticides and fertilizers as a result
- Energy usage; saving 3.2kWh

Saves:

- 20,000 litres of water
- 2.7kg of dyes and chemicals
- 11kg of CO2 emissions

Why use Recycled Cotton?

Waste cotton is collected and sorted by colour

'Clips' are shredded and blended with recycled polyester derived from waste plastic bottles

Re-spun and knitted into new garments

Recycles:

- On average 0.22kg of cotton waste and 19 plastic bottles per sweater

Reduces:

- The land mass needed to grow new cotton; saving 200g of pesticides and fertilizers as a result
- Energy usage; saving 3.2kWh

Saves:

- 20,000 litres of water
- 2.7kg of dyes and chemicals
- 11kg of CO2 emissions
