corporate tailoring

We endeavour to reduce our impact on the local and global environment and are committed to continual environmental improvement. We actively promote the principle of sustainable development, aiming to meet, or exceed, all relevant environmental legislation, reduce consumption of raw materials and to use recycled materials where economically feasible. We follow the labour standards recommended by the Fair Wear Foundation, including ensuring that employment is freely chosen, without discrimination, with no child labour, with payment of a living wage, no excessive hours, decent working conditions and no inhumane treatment.
