

# H I G H V I S I B I L I T Y

At RTY, we only do business with vendors and suppliers that share our adherence to high legal, ethical and moral standards. Our goal is to foster the creation of model operations which provide good jobs at fair wages, and which improve the conditions in the communities where we carry out business.

We share a code of conduct which covers: zero child labour, freely chosen employment, freedom of association, no discrimination, fair wages and employment benefits, and a safe working environment.
