

We are committed to building a profitable, stable company that is compatible with the interests of our wide range of stakeholders, including our customers, employees, suppliers and contractors, business partners and the communities where we carry out our business. We are totally committed to a code of ethics designed to promote honesty, integrity, fairness and mutual respect and we will demonstrate our commitment by: providing a safe working environment; being conscious of the impact of our business activities upon the environment and seeking ways to minimise these effects; working with the local community to establish positive relationships and cooperating with government agencies to ensure compliance with laws and regulations.
