Unleash your creativity with our impressive range of papers. Produce stunning printed textiles by way of sublimation.

**XPWFTS5B - WIDE FORMAT TEXTILES SWATCH BOOK**

A visual guide featuring fabric samples of the complete range of Xpres textiles. We appreciate that it's not always easy to gauge exactly what fabric is best suited to the job at hand, which is why we've created this compact textile swatch book to provide you and your customers a tangible reference point for all Xpres textiles.

**XP5504 - TexPrint-R MUG SHEETS**

TexPrint-R Mug Size Sublimation Sheets are a ‘special purpose’ dye sublimation paper that is specifically designed for increasing production speed when printing ceramics, by eliminating the time taken to trim sheets to the template size.
SUBLIMATION MUGS & DRINKWARE

We offer a variety of blank sublimation consumables in many shapes and sizes. Drink in style with our extensive range of printable ceramics!

XP5013 ULTRA WHITE COATED CERAMIC MUG
High quality mug for sublimation printing manufactured with a dishwasher safe premium coating.
- 92mm high
- 80mm diameter
- 36 per box

XP5025 FINE ENAMEL MUG
These retro style Fine Enamel Mugs are durable, long-lasting and perfect for use at home as well as for camping and outdoor activities. Hand crafted and coated with a bright white enamel paint, each mug is then finished with a silver rim. Due to the manufacturing process the mug is totally individual in its finish adding to its charm.
- 86mm high
- 86mm diameter
- 10oz
- 48 per box

XP5026 BALMORAL BONE CHINA MUG
The Balmoral Mug is manufactured from fine Bone China and is elegant in appearance, with a fine wall and glossy white glaze.
- 82mm high
- 73mm diameter
- 8oz
- 36 per box

XP5028 STAINLESS STEEL MUG
Lightweight stainless steel camping mug. A functional carabiner handle makes this mug perfect for outdoors and camping.
- 88mm high
- 73mm diameter
- 300ml
- With red handle

XP5100 DOUBLE WALL STAINLESS STEEL CAN
Stainless steel ‘tulip’ style cans are a new inventive alternative to single use plastic bottles and the usual drinks bottles available. The cans feature a flip up straw in the lid making them easy use and to prevent spillages.
- Available in white & silver
- Red & Yellow
- Double wall construction
- BPA free lid and straw

XP5101 STAINLESS STEEL WATER BOTTLE
A great alternative to plastic bottles featuring a leak-proof double wall construction to keep your drink chilled or hot for prolonged periods. Available in 5 colours:
- Orange
- Mint Green
- White
- Silver
- Rose Red
- 260mm high
- 70mm diameter
- 500ml
- Hand wash recommended

XP5150 WATER BOTTLE
An aluminium water bottle ready for personalising. Available in white and silver with 2 caps included.
- 210mm high
- 72mm diameter
- 600ml

XP5151 WATER BOTTLE
An aluminium water bottle ready for personalising. Available in white and silver with 2 caps included.
- 180mm high
- 65mm diameter
- 400ml

POLI-PRINT MONOMERIC DIGITAL VINYL

Monomeric vinyls have been designed to be highly resistant to the influence of solvent inks. Excellent printing results with high resolution and rich colours have been accomplished with ECO-Solvent, Solvent, UV and latex digital printers. The inks are coated with high-quality dispersion and solvent based acrylic adhesives offering perfect flatness and dimensional stability. Particularly suitable for use on highly reflective and highly impact resistant surfaces.

CANVAS

Adventa quickpro artwrap canvas
Advanta quickpro artwrap canvas base kits make it quick and easy to produce beautifully framed canvas art and require no specialist knowledge or equipment. Simply print on to your own material and staple it to the board. The strong construction uses a fold and lock method with a premium back board to complete the canvas frame. These frames are super easy to hang thanks to the pre-cut holes. QuickPro ArtWrap canvases are available in a range of sizes to suit all art and photographic sizes. A faster and cost-effective method of making premium high-quality canvases.

Satin art canvas
A satin finish canvas which is in combination with latex or solvent based ink delivers excellent quality and resilience. You get consistently crisp clear accurate lines and vivid colour - even true neutral greys - in fast drying emulsion-resistant inks. Application: Photographic/Fine Art/Textiles Compatibility: Full Solvent, Eco Solvent, Solvent, UV - 430 gsm

BANNER MATERIAL

Frontlit banner laminated
The popular choice for all general indoor or outdoor banner applications. The PVC Frontlit 440 range produces great results with solvent, eco-solvent, screen and latex inks. 440mic

SUBLIMATION PRINTERS

Our latest range of sublimation printers is also our most comprehensive ever! We offer a choice of solutions that will reliably and efficiently produce output from A4 right up to 3.2m wide to suit all users and budgets.

**EPSON**

**XP2760 SC-F6300 SUBLIMATION PRINTER**

- Produce high-quality printed textiles and promotional goods with the low-maintenance dye-sublimation Epson SC-F6300 44” Sublimation Printer.
- The Epson F6300 printer has been developed for textile producers, promotional goods businesses and photographic studios. It boasts a low TCO thanks to improved life-time maintenance costs and a highly productive and reduced downtime.

**XP2761 SC-F580 SUBLIMATION PRINTER**

- Expand business opportunities with high-quality printing and great print speed. This compact printer is perfect for the creation of giftware and promotional goods.

**XP2762 SC-F540 SUBLIMATION PRINTER**

- Designed for fast, high-volume clothing, fashion and soft signage production, as well as other printed material. This new flagship model offers an evolution of trusted Epson print technology that provides even better quality and reliability. XP2762H includes fluorescent ink set.

**XP1820 TS55-1800 DYE-SUB PRINTER**

- Designed for users that demand productivity at high quality at high-speed. With the TS55-1800 it becomes possible to print at high resolution (800 x 600 dpi) with a higher ink density using one-pass printing at 140m2/h. Mimaki’s Advanced Pass System eliminates banding and a higher ink density using one-pass printing at 140m2/h. This new flagship model offers an evolution of trusted Epson print technology that provides even better quality and reliability. XP2762H includes fluorescent ink set.

**XP1834 TS30-1300 DYE-SUB TEXTILE INKJET PRINTER**

- Specifically designed with ease of use and versatility in mind. A highly productive but incredibly simple entry-level dye-sublimation printer, perfect for creating sportswear, promotional apparel, samples and rigid items, such as mugs and metal plaques.

**XP1846 TX300P DIRECT TO TEXTILE PRINTER**

- The ideal solution for direct printing to a wide variety of man-made and natural textiles. A high quality, versatile, direct to-textile printer, the TX300P-1800 is Mimaki’s latest furnishing, fashion, retail, soft signage and exhibition graphics printer.

**NEW**

**XP5600D VIRTUOSO SG600 A4 SUBLIMATION PRINTER**

- Imagine brighter, higher-definition images, with unsurpassed ease-of-use, support, lower startup and imaging costs. The Virtuoso SG600 delivers all this and more.

**XP5601D VIRTUOSO SG800 A3 SUBLIMATION PRINTER**

- Create like never before with the Sawgrass Virtuoso SG800 Standard capacity 4-colour sublimation printer and Virtuoso SG600 8-colour integrated sublimation printing solution.

**XP5602 VJ628 SUBLIMATION PRINTER**

- This high-speed, indirect or direct sublimation printer, when paired for the right materials, can print solid, sharp, bright white colour designs on a wide range of media.

**VIRTUOSO SG600**

- Ideal for the creation of giftware and promotional goods.

**VIRTUOSO SG800**

- Ideal for fast, high-volume clothing, fashion and soft signage production, as well as other printed material. This new flagship model offers an evolution of trusted Epson print technology that provides even better quality and reliability. XP2762H includes fluorescent ink set.

**RT-640M TEXART SUBLIMATION PRINTER**

- The RT-640M Texart Sublimation Printer is the multi-function sublimation device. Print onto transfer paper and direct to-textile. The Texart RT-640M is a multi-function, large format sublimation printer, clearly designed to enable printing both directly and indirectly without any transfer paper and direct to-textile within one single device.

**PRO8432 WT WHITE TONER A3 PRINTER**

- The Oki Pro8432WT A3 white toner printer is a breakthrough in printing technology as it has the capability to print in any colour, including white. Easy-to-use, affordable and ideal for creative, graphics arts use, the Pro8432WT prints solid, sharp, bright white colour designs on a wide range of media.

HEAT PRESSES

We've got the UK's largest selection of heat presses, all of which are ready for demonstration in our state of the art 'Inspiration Suite.'

XP7327
SEFA ROTEX LITE SWING AUTO OPEN PRESS

This press has optimal heat and pressure distribution making it the perfect press for small to medium production runs.
- Press area: 40 x 50cm
- Complete lateral clearance of the plate
- Automatic opening by electromagnetic
- Reversible C-shaped part and quick release
- Electric power: 2500W
- Amperage: 14A
- Work area is 40 x 50 cms

XP7321
SEFA DUPLEx PRO FULL AUTO PNEUMATIC PRESS

Equipped with ample space between, behind and under the plates for greater manoeuvrability. Delivers very high pressure and is ideal for all kind of transfers.
- Complete lateral clearance of the plate
- Automatic opening by electromagnetic
- Reversible C-shaped part and quick release
- Manual rotation

XP7317-V2
SEFA ROTEX AIR PRO V2 PNEUMATIC PRESS

The full-auto ROTEX AIR PRO is perfect for medium-volume flex and screen transfer applications, sublimating on textiles and rigid substrates, DTG, and laser printing, all with outstanding user comfort.
- Auto-open, auto-close and auto-swing
- High-power heating for DTG pre-treatment drying
- Quick-change platens
- Multifunction touch-screen control panel

XP7300
SEFA CLAM PRO AUTO-OPEN HEAT PRESS

A well built, robust heat press with perfect pressure and heat distribution across the plate. The draw plate press is ideal for medium production.
- Draw plate
- Reversible C-shaped part and quick release
- 440x50cm plates to enable maximum garment coverage
- Automatic opening

XP7301
SEFA AIR CLAM X AUTO OPEN PNEUMATIC MEMBRANE

Features an inflatable membrane base and automatic opening function. It has relief adjustment measures for manoeuvring around tricky areas such as buttons, zips and pockets.
- Autoclave plate with inflatable membrane 40 x 50cm
- Very high pressure
- Perfect distribution of pressure and heat
- Effortless opening

XP706A
BETA SWING PRESS

Our best-selling Swing Press offers easy access to the plates as the head swings completely clear.
- 20 x 15" platens
- Digital electronic timer
- Sensitive and consistent heat control
- Quick release interchangeable platens

XP7038
STUDIO TWIN HEAD MUG PRESS

The Twin Head Mug Press enables you to press sublimation transfers onto sublimation mugs. The heating elements are interchangeable with smaller porcelain elements (available separately).
- Two independent digital electronic timers and temperature control
- Consistent and accurate heat control

XP70049
BETA MAXI MULTIPLEX PRESS

This machine has a high pressing bed and offers the capability to press plaques.

- Additional platens are special order items

XP7053
STUDIO AUTO E2 CLAM

The electromagnetic feature on the Studio E2 Auto Clam Press makes this machine very popular.
- Digital controller for time and temperature accuracy
- Suitable for most sublimation, back and flex transfers.
- Work area is 40 x 50 cm2
**Heatpresses**

**Large Format**

**XP7058 Omega 750 Pneumatic Press**
The Omega Series 750 is a pneumatically operated heat press for transfer printing and material fusing. Ideal for medium to high-volume production with low operator fatigue benefits include user comfort and ease of operation, while maintaining consistent pressure control.

Pressing area: 75cm x 105cm
Stand available (sold separately).

**XP7318 Sefa Slide 1285 LF Pneumatic Press**
The Sefa Slide 1285 LF Pneumatic Heat Press is especially perfect for sublimation with great productivity and flexibility. The press has a fast start-up (15-20min) and a multi-zone temperature control to prevent defects on the sides of the plate.

Great for advertising, flags, banners, large photos, and postcards.
Plate size: 85 x 125cm
Weight: 44kg

**XP7323 Sefa Sublimaxi 2513 LF Pneumatic Heat Press**
Features specific electronics to enable sublimation on rigid substrates & textiles. It has double motorized drawer plates, 4 independent heating zones and has nonwovens attached to the heating plate. Ideal for sublimation with good productivity and flexibility the Sefa Sublimax 2513 LF has touch screen facility developed by Sefa.

**Calendar Units**

**XP7080 Alpha Roll Master Calendar Press**
A key feature of the Alpha Calendar Roll Master range is that unlike other similar models that are electrically shoe heated, the Alpha Calendar Roll Master range boasts a 168 mm diameter oil filled drum heating system for superior heat distribution and image transfer with minimal power consumption. This means that producing long continuous production runs, where the first print identically matches the last print, is easily achievable.

**XP1271 Texpres Piece & Roll Calendar Press (Includes Table)**
The detachable feed table allows the user the flexibility to transfer into single sheet fabrics or to run roll to roll transfers.

The solid heavy-duty steel frame construction and innovative infra-red quartz heating technology makes this calendar press a very dependable transfer system.

**Diferro Calendar Presses**
Diferro heat transfer systems are the ideal finishing solution for dye sublimation when producing soft signage, sports kits, home decor and soft furnishings.

Available in different sizes from 1,300 x 320mm up to 3,300 x 1,000mm drum diameter.

**Accessories**

Whether you’re measuring, cutting, weeding, cleaning, applying, organising - we stock all the accessories you’ll ever need.

**Silicone Application Sheets**

- **XP2804** S-1
- **XP2832** 400 x 520mm

**Sublimation H/P Protection Paper**

- **XP6160** Transfer Remover Spray 400ml
- **XP1640** Wedding Tweezers
- **XP1620** Snap Off Knife
- **XP2029** Snap Blades
- **XP2039** Calendar Protection Paper

**Transfer Remover Spray**

- **XP2040** 30kg x 1670mm wide

**Heat Tape**

- **XP6006** Heat Glove
- **XP6010** Teflon Sheets

**Weeding Gloves**

- **XP5495** Heat Gloves

**Silicone Application Sheets**

- **XP5411** Endura Moisture Absorbing Fabric

**Transfer Remover Spray**

- **XP2039** 30kg x 1670mm wide

**Cutting Mat**

- **XP6460** A1
- **XP6461** A2
- **XP6462** A3

**Stainless Steel Ruler**

- **XP6273** 300mm
- **XP6274** 600mm

**Scissors**

- **XP6200** 8.5"
- **XP6201** 10"

**Straight Edge Safety Tool**

- **XP6270** 1000mm
- **XP6271** 1300mm
- **XP6272** 2000mm
