

Brand Ethical Trading Policy

We have a long-standing relationship with our factories and we visit them regularly to check they meet our high quality, social and environmental standards. As Royal Warrant Holders and being ISO9001 and ISO14001 accredited quality, traceability and sustainability are at the heart of what we do.

Our core product ranges are made from GRS certified recycled polyester and BCI cotton and we use recycled and recyclable packaging. The majority of the cloth used in our garments is produced, dyed, cut and sewn in the same area to reduce processing mileage and our environmental impact.

All of our manufacturing partners are externally audited annually against the BSCI Code of Conduct to monitor and assess workplace standards.
